Invitation to Blacksmiths

Howdy Partner

The Blacksmith shop on The Stampede grounds in Strathmore, Alberta during Heritage Days has a few openings for Blacksmiths.

This here Blacksmith shop was created by a western gal, Laura Rider of LKR Events in the year of 2009. Visitors and Exhibitors claim this here event is finer than frog's hair.

Come spiffed up in all your blacksmith riggins and present yourself and your trade to the friendly folk out here. Laura is seeking businesses that would like to cross promote: promote your business with cards, invitations and western posters/signage. You are welcome to add to the building décor to match the old western days. In appreciation, addin' LKR Events to your network, a link to your website and some advertising space would be Jim dandy.

There will be running of the bulls, a pro-rodeo, monster truck, armoured jousting, a western trade show, an agriculture show, doggies and heifers, sawing the fiddle, face painting, skate boarding and plenty of grits.

Mark July 29 to August 2, 2010 on your calendar, so dust off your boots and tools and head on to this western event.

To understand the look of the grounds and the type of buildings Laura creates, peek on her website to see the Western Town that is comin' together.
